If you cannot serve as scheduled, please let the person in bold letters know. Leaders, if you cannot serve as scheduled, please let Lisa Weaver know. ***Please note: the new April & May schedules are now in the Library!**

The Lowly Paper Clip

Several years ago, an expensive laboratory jet was approaching Edwards Air Force Base in California. When the pilot tried to lower the nose wheel to landing position, it didn't respond. The co-pilot ran a quick check and traced the problem to a faulty relay panel. Recognizing the problem, he hunted around for something to bypass the relay and activate the nose gear. He found a paper clip and bent it so it bypassed the problem and triggered the nose gear. It worked like a charm, saving the expensive jet, not to mention the crew, from a crash landing.

At that moment, for that special job, the lowly paper clip was more important than the rest of the sophisticated equipment on the plane. If God wants you at a specific moment, for a special job, are you willing to be shaped into the solution?
